

The European Banking Institute based in Frankfurt is an international centre for banking studies resulting from the joint venture of Europe's preeminent academic institutions which have decided to share and coordinate their commitments and structure their research activities in order to provide the highest quality legal, economic and accounting studies in the field of banking regulation, banking supervision and banking resolution in Europe.

The European Banking Institute is structured to promote the dialogue between scholars, regulators, supervisors, industry representatives and advisors in relation to issues concerning the regulation and supervision of financial institutions and financial markets from a legal, economic and any other related viewpoint.

EBI's mission is to produce interdisciplinary, focused, relevant and worthwhile banking research; to stimulate synergistic debate between academics, policy makers, supervisors and supervised; to make recommendations, develop ideas and devise new strategies on banking in Europe; and to share our research outputs through publications, seminars and conferences.
