ALMA MATER STUDIORUM
UNIVERSITÀ DI BOLOGNA

Our vision

MIEX is a one-year master program fully taught in English for graduate students wishing to develop skills and expertise in the internationalization of firms.

Our mission

MIEX is a unique and innovative program aimed at preparing the global business leaders of tomorrow. MIEX distinguishes itself through its strong academic alliances, top quality international management education and insights, as well as practical hands-on professional and business experiences. MIEX also features an international and diverse faculty of academics, managers and professionals in its campuses around the world.

Our students

Diversity is our key word. Each year international applicants from a wide variety of cultural, personal and professional backgrounds apply to join MIEX. While each MIEX student and each MIEX edition are unique, there are certain qualities they share: they are driven, open-minded go-getters, hungry for new experiences who bring to the table a curiosity that promotes depth and a strong work ethic mixed with a healthy dose of daring ambition.

International journey

MIEX's structure allows students to tailor their experience to best suit the needs of their professional aspirations and goals: the one-year program starts in September 2024 in Nancy (France), continuing in Forlì and Bologna (Italy) from January 2025. An optional second year takes place either in Porto Alegre (Brazil) or Shanghai (China) or Berlin (Germany) or Mexico City (Mexico). At the end of Year 1, students are awarded with the UNIBO "Master universitario di I livello" in International Management (60 ECTS). Students continuing for the second year can earn up to three different degrees: ICN Master of Science in International Management plus one awarded by the second year partners university (120 ECTS).
